

CSE20 : Midterm Practice

Overview

We want you to review all the materials from this semester and also get a sense of how to take a paper exam. First one hour of the lab will be taking the sample exam without a computer aid. Then you have 30 minutes to check your answers with Eclipse or your notes. We will do a self-correction session while your TA shows and discusses the answers to the sample exam. You will submit the results of this assessment lab session to get full credit for this week's lab.

If you cannot make the lab session then you must see the TA at Office Hours or meet with them to get a sample midterm. Then you must submit the lab assignment questions to get credit for this lab. Attendance in lab is mandatory without a valid reason for missing it.

What to hand in

When you are done with this lab assignment, you are ready to submit your work. Make sure you have done the following **before** you press Submit:

- ◆ Show one problem you fixed with the help of Eclipse or notes (if any)
 - ◆ Any topics or problems you have trouble understanding? (if any)
-
